Professional Experience

Senior Software Engineer – (Nov 2024 – Present)

Union Street Media – Burlington, VT

Architected complex initiatives for multiple projects teams.

Navigated complex system upgrades such as migrating projects from AWS Serverless to CDK.

Leading teams through major refactoring and performance upgrades.

Software Engineer II – (Mar 2021 – Present)

Union Street Media – Burlington, VT

Led frontend development with ReactJS, implemented Redux and successfully brought a 2-year project to completion.

Developed systems in AWS Serverless Architecture using TypeScript Lambda and DynamoDB.

Software Engineer III – (Oct 2018 – Apr 2021)

Vermont Systems, Inc – Essex, VT

Full Stack Development in HTML, Javascript/JQuery, Vue and Progress OpenEdge.

Led design and development on several cross-product integration solutions.

Conducted meetings for application accessibility (WCAG).

Software Engineer II – (Apr 2017 – Oct 2018)

MyWebGrocer (MI9) – Winooski, VT

Development lead on Sitecore integration project.

Worked directly with client development teams to produce cross-platform solutions.

Diagnosed and solved complex application issues.

Software Engineer I – (May 2015 – Apr 2017)

MyWebGrocer (MI9) – Winooski, VT

Full Stack Development in HTML, Javascript, KnockoutJS, C#, and ASP .NET.

Contributed to application development direction.

Lead Developer – (Nov 2014 – May 2015)

PIEmatrix – Burlington, VT

Advised on product direction and hiring.

Led a team of developers, QA and support.

Led an extension team in India.

Instituted the Scrum framework into the core development process.

Facilitated Scrum meetings as the Scrum Master.

Maintained a MySQL database.
